PRINCIPAL’S REPORT

Writer’s Blog
Just a reminder that our Sunny Heights Writer’s Blog is up and running. It is open to all students and staff. However, to have your writing published on the website your child must have returned their Website and Media declaration. If you need another copy of this form, please drop by the office.

My goal for this weekend is to look back through my Writer’s Notebook and select a piece to contribute to the Blog – stay tuned!

Focus on Mathematics
I have been popping in to a few grades this week to have a look at all the great work that is going on in Mathematics. It has been a real pleasure to spend time in a variety of classrooms and to chat to students about their learning in Mathematics. I am so proud of all the students who chatted to me and were able to talk about their learning. Many students were able to articulate why they were doing a particular task and how this helps them develop as a mathematician. Some students were able to explain when they got the right answer. Sometimes getting the answer wrong can be a great learning experience for students talk about what they did and justify their thinking.

Another thing I noticed is that the emphasis is not only on whether the answer was ‘right’ or ‘wrong’, but rather on how students got the answer. Sometimes getting the answer wrong can be a great learning experience for students talk about what they did and justify their thinking. Teachers do a great job supporting students in this thinking by asking probing questions to deepen students’ understanding.

Well done to all our students and teachers – keep up the great work Mathematicians!

Hope everyone has had a great week.

Jacinta Goldie
Acting Principal

Students’ thoughts on Growth Mindset

Yes! You have chosen the right pathway. The growth mindset pathway allows you to believe in yourself and take on challenges. This pathway also allows you to be what you want to be in the future through the help of practice. Everyone should be taking this pathway, no matter where you are. Oh! And take on the feedback whether it’s positive or negative, I promise it will help you with your life.

Rosie 5A
Hi! As grade 5/6 students, we are getting ready for the school’s 60th Birthday, which is on the 8th of September. We are preparing lots of games to enjoy such as: skipping, hopscotch, footy, twister, bowling, candy land, play doh and more. Hope to see you all there!

Growth mindset is a positive thing we can use it or not use it. Growth mindset helps with negative feelings. Fixed mindset is when you would fail because having a fixed mindset you would stop and ignore feedback, and fight back at growth mindset. Growth mindset can make you have confidence, and make you do things you are not good at or don’t work well with. Once I used a growth mindset and I felt really good.

UPLIFT COLLECTIVE FUNDRAISING NEWS

Raising extra funds for kids, thanks to the work of our students!

2015 Fundraising $4,633.00
Easter Raffle 2016 $950.10
Mother’s Day T-Shirts $859.28

Please note that money raised in 2015 was to be used to contribute to the creation of an outdoor space for the students. This project has been delayed due to the works occurring in relation to the $421,000 Government Grant and will commence in Term 3.

Instrumental Lessons at School

Did you know that Music:
Develops mind hand & eye co-ordination
Enhances listening skills
Improves self esteem
Is fun!

Lessons starting from $14.00
5% discount to parents wishing to enrol more than 1 child.

Enrolment forms are available from the School Office or contact Genesis Music School Direct on 0421 426 674
**Literacy and Numeracy Tips of the Week**

Ask your child questions about what they have learnt in Reading, Writing and Numeracy this term. Question their responses and be engaged in conversation. They may even want to write and draw something about their experiences as a reflection.

**Useful Literacy and Numeracy Websites**

This Father’s Day, the Uplift Collective warmly welcomes you to bring your hero along to our annual breakfast. Well once again be converting the gymnasium into a little haven where you and your hero can take flight and make memories.

The Uplift Collective will be setting up a DIY Father’s Day Photo Booth, a card-making and paper airplane crafting table, a range of board games to battle with your hero, poetry readings from our students and some very special gratitude cards. Not to mention our tasty, self-serve breakfast.

We have made some super cool HERO caps for you to pre-order and we’ll have a little stand set up on the day selling small things to make your hero smile.

We hope you can come fly.
Join us on the oval to complete our mulching of native shrubs and grasses, donated by Melbourne Water and Friends of Kororoit Creek.

These plants will provide a habitat for small birds, butterflies, skinks and insects. The mulch that we lay down will provide a protective layer around the plants, preventing moisture loss during the hot summer, and attracting beneficial microbes, insects and worms into the soil.

If you have extra wheelbarrows and shovels please bring them along.

Stay for as little or as long as you like

Many hands make light Work
Healthy School Lunches

Healthy food at school is important for your child to learn, concentrate, and for their growth and physical activity. Packing a healthy lunchbox will help children develop life-long healthy eating habits. You may need to vary the amount of food you pack, depending on your child’s age and appetite.

A healthy lunchbox includes food and drinks from these five food groups:

**Bread / Cereal based food**
Wholemeal or wholegrain varieties are the best choices.
Try bread or bread rolls, wraps, fruit bread, pita bread, bagels, lavash bread, noodles, pasta, rice, pikelets, scones, savoury muffins, and rice cakes.

**Meat / Fish / Chicken / Eggs or alternative**
In sandwiches or salads try lean meat slices, ham, chicken, egg, salmon, tofu, or baked beans.
As a snack try a boiled egg, small can of tuna or baked beans/canned bean mix.

**Fruit**
Choose fresh fruit in season e.g. grapes, apples, oranges, mandarins, pears, bananas or a fruit salad.
Canned fruits (in fruit juice, not syrup) and dried fruit are also suitable choices.

**Vegetables**
Try carrot/celery/capsicum/cucumber sticks, cherry tomatoes, or corn cobs.
Add sliced tomato, cucumber, beetroot, grated carrot, avocado, and/or shredded lettuce to sandwiches.

**Milk / Cheese / Yoghurt**
Reduced fat varieties are the best choices.
Try yoghurt tubs, milk (long life tetra packs), cheese slices.
Dairy alternatives (with added calcium) such as calcium-fortified soy, almond or rice milk, are acceptable alternatives.

**Keep lunches cold** to prevent food from spoiling with:
- an insulated lunch bag, or
- frozen ice bricks, water or milk (long life tetra packs)

**Water**
Water is the best thirst quencher. Pack a bottle of tap water everyday.
